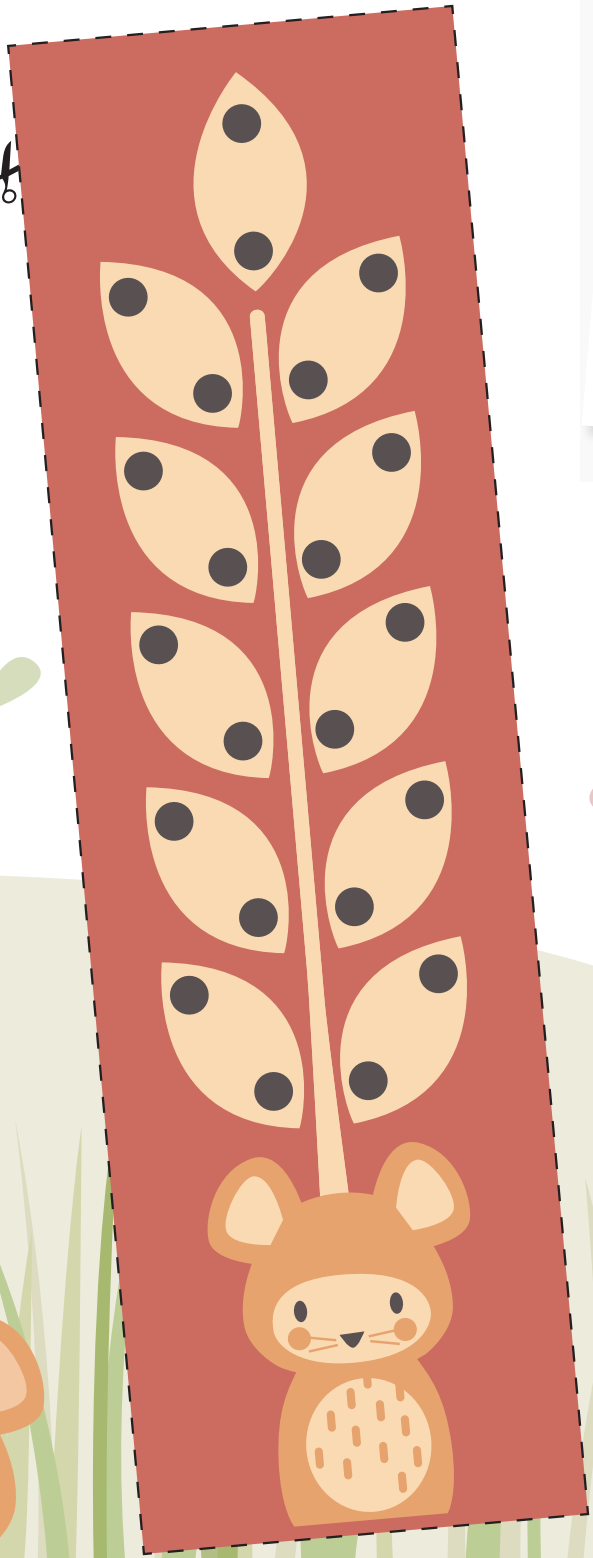
Weave a bookmark

tender leaf® printables
www.tenderleaftoys.com

Create a beautiful, woven bookmark to keep or gift! Print out this page, then carefully cut along the dotted lines. Next, use a hole punch to cut out the black circles on the wheat. Finally, grab a piece of ribbon and start weaving it through the wheat pattern as we have here.

Share you creations with us! #tenderleaftoys



Make your bookmark super sturdy by glueing it onto a piece of card before you start weaving!
